

# How to Enable Student Groups

This document provides instructions for enabling the Groups function in your course to help organize and track separate student cohorts in the course.

1. First, from the course front page, click the **Settings** menu option at the top of the page.

2. On the course settings page, please scroll down to the Groups section and click to expand it.

3. From the **Group mode** selections, choose your preferred option:

- **Separate groups:** Each group member may only see other students within their group.
- **Visible group:** Each group member is confined within their group but sees other groups.
