

How Do I Choose What Quiz Feedback My Students Can See in Their Results?

1. Click on the quiz you'd like to adjust student review options for. On the following page, click the **Actions** button

2. Click **Edit settings**. A settings page will open displaying parameters that manage how the quiz functions.
3. Scroll down and expand the "Review options" section. You will find 4 check-box lists that allow you to toggle on or off any specific feedback your students can see for their results.

5. For example, 'During the attempt,' or as students are taking the quiz, all feedback options are unavailable by default so that students do not immediately see the correct answers for any questions as they are taking the quiz.
6. The 'Immediately after the attempt' and 'Later, while the quiz is still open' columns control any feedback students can review upon completing and submitting their quiz.
7. Review options in the last column, 'After the quiz is closed' will only be available provided you have applied a hard date and time for when the quiz closes in the Timing section. Under each of these columns, you may select what feedback you want students to see at these times.
8. By default, students may see what their answer choices were and which questions they got wrong, but they will not be able to see the correct answers until you switch on the "Right answer" option in the middle two columns.
