# How Do I Hide Course Items or Tests From My Students?

1. Navigate to the course page which contains the items you would like to hide, then click the **Actions button** ⚙️ ▾ and select "Turn editing on"

2. To right the of the item, locate and click the "Edit' menu. Then click the "Hide" option.

3. Hiding an item will remove it from students' view, both in the course and the gradebook. Hiding items will also prevent students from accessing or completing the hidden resource or activity.

4. You may apply the "Hide" setting to any individual item or, to hide an entire topic full of content from the students, simply select the Hide option from the settings menu for the desired topic.

How Do I Hide Course Items or Tests From My Students?

5. When content is hidden you will see that its title becomes opaque and that it displays a notice stating that it is hidden from your students. As an instructor, you may still access any hidden items as needed without ever revealing them to your students.

6. Should you decide to unhide any hidden item in the course, simply turn editing back on for the page displaying the hidden item, click the Edit menu, and select the "Show" option to make it available again.
