CDX FAT Online contains Lecture Outlines, containing important highlights for all chapters of the textbook.

Begin by logging into your account at cdxauto.com and navigating to your CDX Product.

Then, click on the course that contains the chapter you would like Find and Use the Lecture Outlines from the navigation on the left.
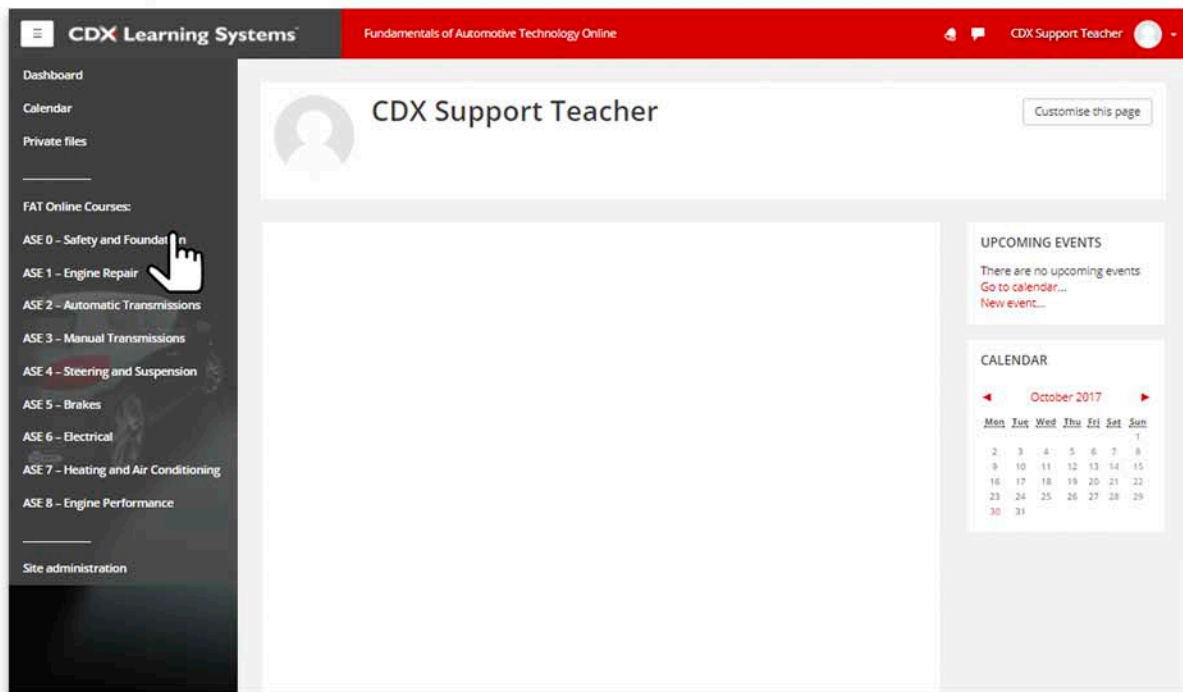

This will bring you to a page with all the chapters down the left with the sections of the currently selected chapter across the top.
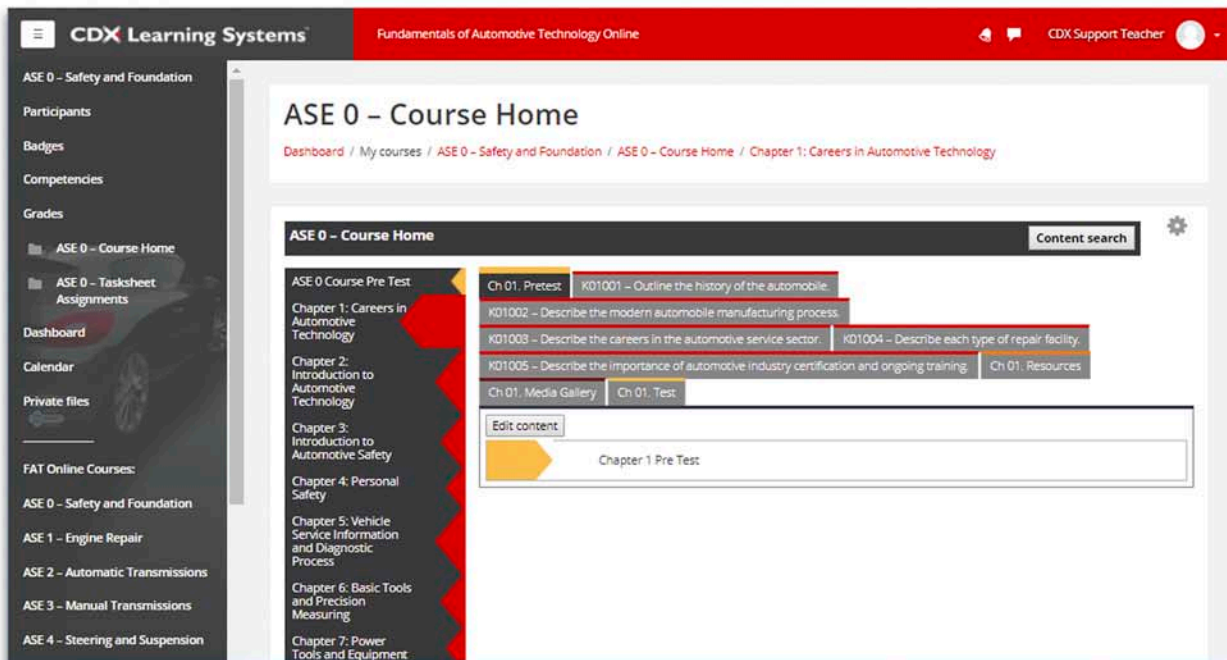

Near the end of each chapter you will see a section called Resources[1]. Click on that option to see the resources for each chapter. Under Resources you will find an option for Lecture Outline[2]. Click on the Lecture Outline link to download it as a Microsoft Word File.

These chapter Lecture Outlines contain a list of Knowledge Objectives, Stkill Objectives, Readings and Preparation, Support Materials, Pre-Lecture notes, notes for individual Lectures, and Post-Lecture notes.

You can use these resources to assist you with planning out your classes while knowing all important parts of each chapter.
