Navigating Content in your MLR2014 CDX Course

1. To begin navigate to your CDX Course page and log in to your account.

2. The content of your CDX course is divided into the different course sections as seen at the top of the page. To see the content for a course section, click on that course from the top of the page. This will bring you to the Course Content page for that Course.

3. The chapters contained in that course will be listed down the left side of the page with the different topics of the currently selected chapter being listed across the top of the page.
4. Clicking on a chapter will reload the page with the topics for that chapter.

5. Clicking on any of the Topic sections across the top will reload the page with a list of all content contained in that topic.
6. Items that have the video icon next to them contain theory videos.

7. Clicking on any of the items will open that content in a new window. The content windows will have tabs across the top that link to various resources connected to that content, such as a glossary, any associated Theory Videos, and any Knowledge Check activities.
